

WHAT'S NEW?

This quarter at Soul Survivor Ink we have been especially busy! With numerous news stations interviewing us, countless survivors requesting cover-ups and removals, and an overwhelming number of new tattoo artists and removal specialists, we could not successfully meet our goal in helping as many survivors of trafficking as we have without the generous help and support of our donors!

We strive in helping as many survivors as we can! Check out what we have been up to!

THANK YOU DONORS!

Our quarterly newsletter highlights our latest achievements and successes at Soul Survivor Ink!

Story in the Spotlight

This quarter has been particularly challenging as we have received an uncommon number of scholarships of minors that are requesting their brandings removed. Currently, we are helping children aged 7, 11, 14, and 17 that are all siblings. We are TRULY grateful to be able to aid in their healing and provide the ability to remove these awful markings.

THANK YOU!

DONATE

Giving Back

Soul Survivor Ink is known for removing and covering up brandings on trafficking victims. But did you know SSI helps survivors in so many other ways too! SSI assisted two survivors with apartments and paid for 6 months of their rent. In addition, every month we have provided a multitude of food carts and gift cards to grocery stores.
